

DRUGS DESIGNED FOR YOU

Wednesday April 20, 2005

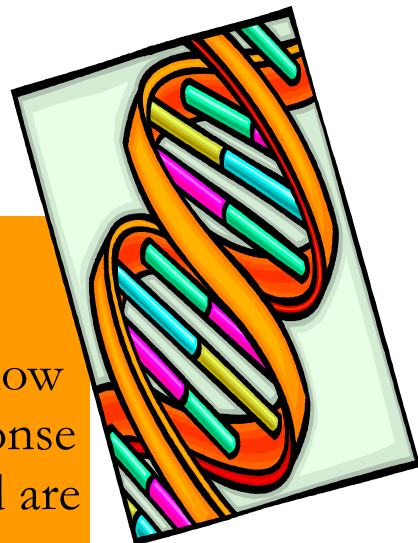

3:30-4:30 pm Room 114

Join us for a lively discussion on
“Pharmacogenomics: Drugs Designed
for You”, presented by Louisa Stark from
the Genetic Science Learning Center.

Visit [http://gslc.genetics.utah.edu/units/
pharma/](http://gslc.genetics.utah.edu/units/pharma/) for more info!

Personalized medicine may be just
around the corner!

Pharmacogenomics is the study of how
our genetic makeup affects our response
to medications. Advances in this field are
developing rapidly and have already
begun to affect our lives.
